## SMART POWER EYE

Outdoor Instant Surveillance System

### CGJ300L

- Outdoor Waterproof design .
- Built-in PLC for cable free instant installation
- P2P video connection technology for plug and view
- Supports iPhone / Smart Phone remote video monitoring
- Infrared for Day and Night monitoring

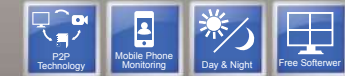

## Geniecam

The Extension Of Your Smart Phone

### CSJ233

- P2P video connection technology for plug and view
- Supports iPhone / Smart Phone remote video monitoring
- Infrared for Day and Night monitoring
- Free Software

Plug & Play

## POWER CONTROL BOX

Instant Home Automation System

### PBX100L

- Built-in PLC for cable free instant installation
- P2P technology for plug and view
- Power on/off from remote site.
- Easy to install.
- Easy to relocate.

## NETWORK VIDEO RECORDER

Cost effective IP Cam video recording system

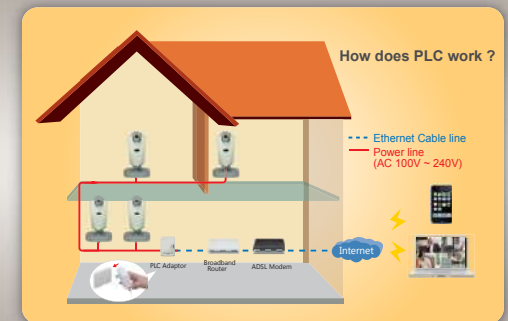

### NVR210

- 4-Channel AVI recording.
- 2 SATA HDD support up to 2TB.
- Built in NAS function.
- Easy Installation and Operation.
- Web-based interface for remote access.

## PLC TECHNOLOGY

You may use the existing power line at home to transmit video signal to broadband router via PLC Bridge and go through Internet. With the advantage of PLC, the video signal can be delivered steady and its transmission coverage is farther than Wi-Fi. Therefore, the expensive cabling and installation costs are no longer required.

## P2P TECHNOLOGY

With the Throughtek P2P (point-to-point) technology, the IP camera can be linked through internet without complicate port mapping or DDNS setting. There is a unique ID/Password number printed on each Throughtek P2P IP camera. Users just simply enter the ID/Password then video can be displayed.
